Nguyễn Quang Trung

MOBILE DEVELOPER

0903972116 trung080520011@gmail.com Ho Chi Minh

PROFILE

Proactive Mobile App Developer with a master's degree. Experienced in testing software applications, developing test cases, detecting defects, tracking, and communication test results while resolving issues with test management tools.

EDUCATION

University of Science - VNUHCM 2019 - 2023

Electronics and Telecommunication Engineering / IoT Programming

Completed Mandatory Military Service (2024 - 2025)

SKILL

Front End (Mobile)	Flutter, Native Android, Android Java, Kotlin, ReactJS,
Back End	Express.js, Node.js, MongoDB, MySQL

WORK EXPERIENCE

GSOFT 08/2022 - 12/2022

Android Developer Intern

- Developed user-friendly interfaces using Android Studio and Kotlin, Android Java.
- UI/UX Design & Retrofit IntegrationUI/UX Design & Retrofit Integration
- Building Responsive UIs & Scalable API Integrations Flutter

Ecomx 12/2022 - 06/2023

Flutter Developer Intern

- Developed mobile applications using Flutter to meet specific client requirements.
- Managed daily operations across multiple locations to ensure compliance with state regulations.
- Utilized BLoC, Dio, and Clean Architecture to design mobile app structures.
- Created e-commerce and booking solutions that enhanced customer engagement.
- Designed high-performance UI and scalable architecture with BLoC and Dio frameworks for optimal app performance.

Vinabusiness 12/2023 - 1/2024

Flutter Developer Fresher

- I paused my professional career at that time to fulfill my mandatory military service from 2024 to 2025.

5S Group 02/2026 - Present

Mobile Developer Fresher

- Specializing in multi-platform mobile development (Flutter/Android Java), I enhance user experiences by integrating WebViews and real-time communication systems (Web Sockets). I take full ownership of Quality Assurance (QA/Testing) and the App Store/Google Play release process, ensuring every product meets the highest standards before reaching the end-user
- Developed user-friendly mobile applications tailored to client requirements, enhancing client satisfaction.
- Conducted thorough testing and debugging of mobile applications, improving overall application stability and user experience.
- Collaborated with cross-functional teams to clarify and refine project requirements, ensuring alignment with client objectives.

PERSONAL PROJECTS

Integrated E-commerce EcosystemIntegrated E-commerce Ecosystem 02/2026 - 03/2026

Full-stack Developer | Mobile App | Admin Dashboard | Backend

- **Description:**A production-ready e-commerce ecosystem consisting of a Flutter mobile application for customers, a ReactJS admin dashboard for inventory management, and a centralized Node.js RESTful API.
- **Mobile:** Flutter, Dart, BLoC, GetIt, Dio, Retrofit.
- **Web Admin:** ReactJS, Ant Design, Redux/Zustand.
- **Backend:** Node.js, Express, MongoDB, Socket.io, JWT

Key Responsibilities & Features:

- **Mobile Storefront (Flutter):** Built a high-performance UI using **BLoC** for state management and **GetIt** for Dependency Injection. Integrated **Retrofit/Dio** for efficient networking and **WebSockets** for real-time order updates.
- **Admin Control Center (ReactJS):** Developed a responsive management dashboard using **ReactJS** and **Ant Design**. Implemented complex data tables, product CRUD operations, and real-time sales tracking.
- **Centralized Backend (Node.js/Express):** Engineered a scalable server-side architecture using **Node.js** and **Express**. Managed a **MongoDB** database with optimized schemas for products, users, and orders.
- **System Integration:** Implemented **JWT Authentication** across all platforms, ensuring secure data exchange between the Mobile App, Admin Hub, and Backend.
- **Architecture & Quality:** Adhered to **Clean Architecture** principles (Data-Domain-Presentation) to ensure modularity and ease of maintenance across the entire stack.
- FrontEnd (Mobile) : **https://github.com/trung08052001-hcm/shop__app**
- FrontEnd (Dashboard) : **https://github.com/trung08052001-hcm/shop-admin-hub**
- BackEnd : **https://github.com/trung08052001-hcm/shop__app-backend**

Shopping Phone Chatbot AI 06/2023 - 03/2023

Graduation Thesis - Full-stack Developer | Mobile App | Backend

- Description**:** Architected & Developed a full-stack AI solution integrating a **Rasa NLU** backend with a
- **Flutter** mobile interface to automate the shopping experience.

Key Responsibilities & Features:

- Built a comprehensive shopping assistant system using **Rasa AI** (Python) and **Flutter** (Dart).
- Designed a robust communication bridge between the mobile client and the AI server via REST APIs.
- Optimized application performance and state handling using **GetX** and **Provider**.
- Implemented conversational flows to guide users from product discovery to checkout within a single chat interface
- Github : **https://github.com/snowflow3rs/mobiefoodapp/tree/ShoppingChatbotAI**
